

Dear Lawley Academy Kitchen Staff,

I am writing to you because of the food waste we have noticed increasing daily in the hall at lunch times.

We would like to get a compost bin routine started to turn all suitable waste food into compost for the school grounds to save it being thrown away. We can compost a wide range of food items such as fruit and vegetable peelings and cores which are left over from cooking preparation or eating.

We should compost our food instead of throwing it away because if we compost the food left over by all of the children in the dinner hall, we could save lots of money on resources to develop our garden areas.

We would really love to have a meeting with you about our ideas and see if this is something we can get started in school with your help. We have already asked Mr Phill for his help to get the compost bins ready so we can make this plan happen!

I hope you consider it.

Yours faithfully,

Lena and the eco committee team.
